- Bremen Town Musicians – 8/23:** Discover German through the adventures of a donkey, a dog, a cat, and a rooster, discarded or mistreated who decide to go to Bremen and become musicians there.

Cook & Learn Camps (included in Full Day Camps)
4 -6 yrs & 7-10 yrs M-F 1 week 1:00-3:00

French or Spanish or Italian or Chinese or Japanese
 Kids love to cook. What better way to expose your child to another language but in the medium they so naturally respond to! Fun and traditional recipes made with love using the foreign language. Cook delights such as coco rico, arroz con leche,cascara de papa & of course tortillas! Oui Oui for la salade Niçoise, le croque-monsieur, mousse au chocolat and naturally - les crepes!
 It's **hands-on**, visual nature makes it perfectly suited to the best language methodology, the immersion approach. Your kids **learn little songs and rhymes** as they grind spices with a mortar and pestle, **count out raisins** for "Arroz con Leche", **repeat commands** as they stack up little "tapas" platters, smell fresh basil and grate parmesan over orzo pasta, and **dance "en rond"**, in charming traditional aprons. This class is scheduled from 1:00 to 3:00 in the afternoon so there is still time for free morning.

Little Ones up to 5 years

Why now?

New research shows that babies' brains are primed to learn language long before they utter or understand their first words.

The brain treats multiple languages as one language. So someone who learns a foreign language in childhood, uses one efficient part of the brain. A person who learns after childhood uses two different parts of the brain. So language learning is not as efficient and much more difficult.

Your child can achieve a native-like pronunciation.

He will be more creative and better at solving complex problems

Learning a foreign language will stimulate brain activity

Research suggests that a second language helps enhance English and other academic skills.

Mommy & Me

SPANISH FRENCH (5 moms maximum)

1 to 2 years old I am SO excited about our **Mommy and Me** programs! **First our teachers:** You will be very impressed with their enthusiasm, their ideas and above all their skills! Mommy: you are going to experience a very fun and informative class with your lovely little one!

Second our new Mommy and Me setting: no sitting down on a hard rug, we have dedicated mats, soft on the knees! Soft for the little ones to tumble and play, yet hard enough for our 'beginner walkers' to practice their new acquired skills. Dedicated, also means cleaned before every class so your child crawls on a clean surface.

Only 5 moms per class! Don't miss this unique opportunity.

Immersion for Preschoolers

SPANISH FRENCH MANDARIN

Age 3 to 5 (8 students maximum)

Through life instruction, children learn to speak *Spanish/French/Mandarin*, the same way they learned their first language by laughing, playing, drawing and eventually conversing. Your child will participate in hands-on learning experiences. Every class is designed to guide them towards becoming joyful and independent learners. At the same time, almost effortlessly, your child will acquire a second language.

You can expect many of the same routines and activities that you would in exemplary English-speaking school rooms, but with the added important *focus on language acquisition*.

Our immersion approach means that every moment in the classroom is also considered for its language-learning opportunities. **We know that the best way to learn a language is to be immersed in it through games, songs, stories, plays...**

Our teachers skillfully apply the most up to date language teaching practice in a loving, developmentally appropriate environment:

- ⇒ **Happy & Nurtured**
- ⇒ **Small class size, lots of individual attention**
- ⇒ **An understanding of and respect for learning styles**
- ⇒ **Our teachers are trained in positive discipline technique**
